*“And dearer still, through absence grows
The memory of the past.”*

JUNE, 1938, GRADUATING CLASS
LANGLEY HIGH SCHOOL
PITTSBURGH, PENNSYLVANIA

THE ALMA MATER

On Pittsburgh's western hillsides,
 Stands our Alma Mater,
 By the Ohio, deeply flowing,
 Strong like the river ever be.

Langley, Langley, Alma Mater
 To Truth, and Wisdom, thou the Key.
 Langley, Langley, Alma Mater
 Our Hearts are true to Thee.

—R. C. von Ende.

A Tribute

James Noble Rule was a man of vision and action. The influence of his life reached far and was good. His first thoughts were of Langley and for the maintenance of its high standards; his ambition, to lead Langley to still greater achievements.

Dr. Rule was distinctive among men. By his manner, his personality, his broad experience and his able leadership, he always impressed those who came in contact with him. He made countless friends in all walks of life.

He was a vital influence at Langley. Teachers and pupils alike felt that here was a true leader and a sympathetic friend. He was never too busy to devote his time to those who asked for his counsel.

He has left behind him ennobling ideas and an example of unselfish service which should inspire to a richer and fuller success in life those who, sometime in their lives, have come in contact with him. Education has lost a pioneer; we, a leader and a friend.

Welcome

The graduating class of June, 1938, extends to our new principal, Dr. Dana Z. Eckert, a most cordial welcome.

We know that you will find Langley's faculty and pupils always ready and willing to cooperate.

May the coming years at Langley be the happiest of your varied and useful life.

Appreciation

To Miss Ada C. Park and Mr. Bruce Cobaugh who for twenty-five years have devoted themselves unselfishly to the service of boys and girls in Riverside and Langley, we dedicate our Aeronaut.

MISS PARK

Truly a woman of great character is our good friend and teacher, Miss Ada C. Park. A keen wit and a grand sense of humor endear her to all who know her.

"To be of service rather than to be conspicuous" has been her motto during the past twenty-five years. Although Miss Park is primarily a Senior English teacher, for several years she has been the Senior Class Sponsor. As a teacher and as a sponsor, her work has been outstanding.

Miss Park's helpful suggestions, given in her inimitable manner, have greatly benefited us in our effort to become better students during our high school days and better citizens during the life we shall lead after we have left the halls of Langley.

MR. COBAUGH

For his kind, willing assistance in solving our many difficult problems and for his generous gift of so much of his valuable time, the pupils of the June '38 graduating class wish to thank our Vice-Principal, Mr. Bruce Cobaugh.

During the twenty-five years of Mr. Cobaugh's association with Riverside and Langley, he has rendered innumerable services to the schools and to the pupils. Hundreds of our graduates count him as a valued friend.

Always, Mr. Cobaugh has kept the interests of Langley nearest his heart. Each pupil is treated in the same sympathetic manner. All are dealt with equally. His loyalty has been of the highest.

If we, in our life work, can retain something of Mr. Cobaugh's ideal of service, our lives will hold a fuller measure of success and happiness.

History of Langley High School

The history of Langley began with Riverside High School. In 1919 Mr. Frank E. Fickinger was sent with three other teachers to the Riverside building to organize a high school for the West End district. The location of the school was very inconvenient but was used until the new building was ready in 1923.

The inception of Langley High School dates back to 1913. After considerable controversy, land covering an area of five acres was purchased in Sheraden between Sherwood and Hillsboro Avenues extending to Chartiers Avenue. In 1916 an architect was chosen to prepare the plans for the school.

Delay in erecting the building was caused by the high cost of material and labor which prevailed just prior to the Great War, and was further delayed by our entry into the war. Finally the building was contracted for on December 20, 1921.

The design of the school follows the Gothic style and its architecture is similar to that of Warwick Castle which is located in England.

The building was completed and ready for occupancy on April 9, 1923, costing \$703,117.08. Necessary equipment cost \$89,915.63, making a total of \$793,032.71.

The pupils and teachers moved into the new building in April 1923, and the enrollment, which was then 300, increased rapidly. In 1926, it became necessary to make an addition to the building. At that time the enrollment was approximately 1,350 pupils and 53 teachers. Now there are 2,100 pupils and 65 teachers.

The name Langley, which the school bears, was selected in 1917 in honor of Dr. Samuel P. Langley, astronomer, scientist and inventor of lighter than air transportation, who had yet to be honored by Pittsburgh where he had spent so many fruitful years.

Since opening in 1923, the school has been capably headed by Mr. Frank E. Fickinger from 1923 to 1934; the late Dr. James N. Rule from 1935 until his death April 11, 1938; and by Dr. Dana Z. Eckert who was appointed to this position on April 21st. All have been ably assisted by Vice-Principal Mr. Bruce Cobaugh.

**Mr. F. E. Fickinger**

Principal of Riverside High School, Langley's predecessor, from 1910 to 1923; and of Langley from its opening in 1923 to June, 1935. Mr. Fickinger is pleasantly remembered by most of our present 12 A's. He is thoroughly enjoying life by spending his summers in Sewickley and his winters in Florida.

**Riverside High School
1910 - 1923**

How would you like to go to school here? Mr. Cobaugh says that when the river got up, school was dismissed; so, "the boys used to stand on the river bank and root for the river to rise."

To Our Sun Dial

*Fond memories gather 'round
This spot where you are found,
And lovely sights abound
At each season of the year.*

*Frail branches laced with frost
Snow-trimmed, and tempest-tossed,
And then in blossoms lost
When first signs of spring appear;*

*Your bench by which we'd stay
To chat each sunny day,
While you tolled the hours away
Without a sigh or tear.*

*And your philosophy,
"Grow old along with me,
The best is yet to be,"
Is full of hope and cheer.*

—ANN GAYLORD.

Return Thoughts

*When we were still in Langley High,
We often used to ponder
On things outside, and send our
thoughts
Into the clouds to wander.*

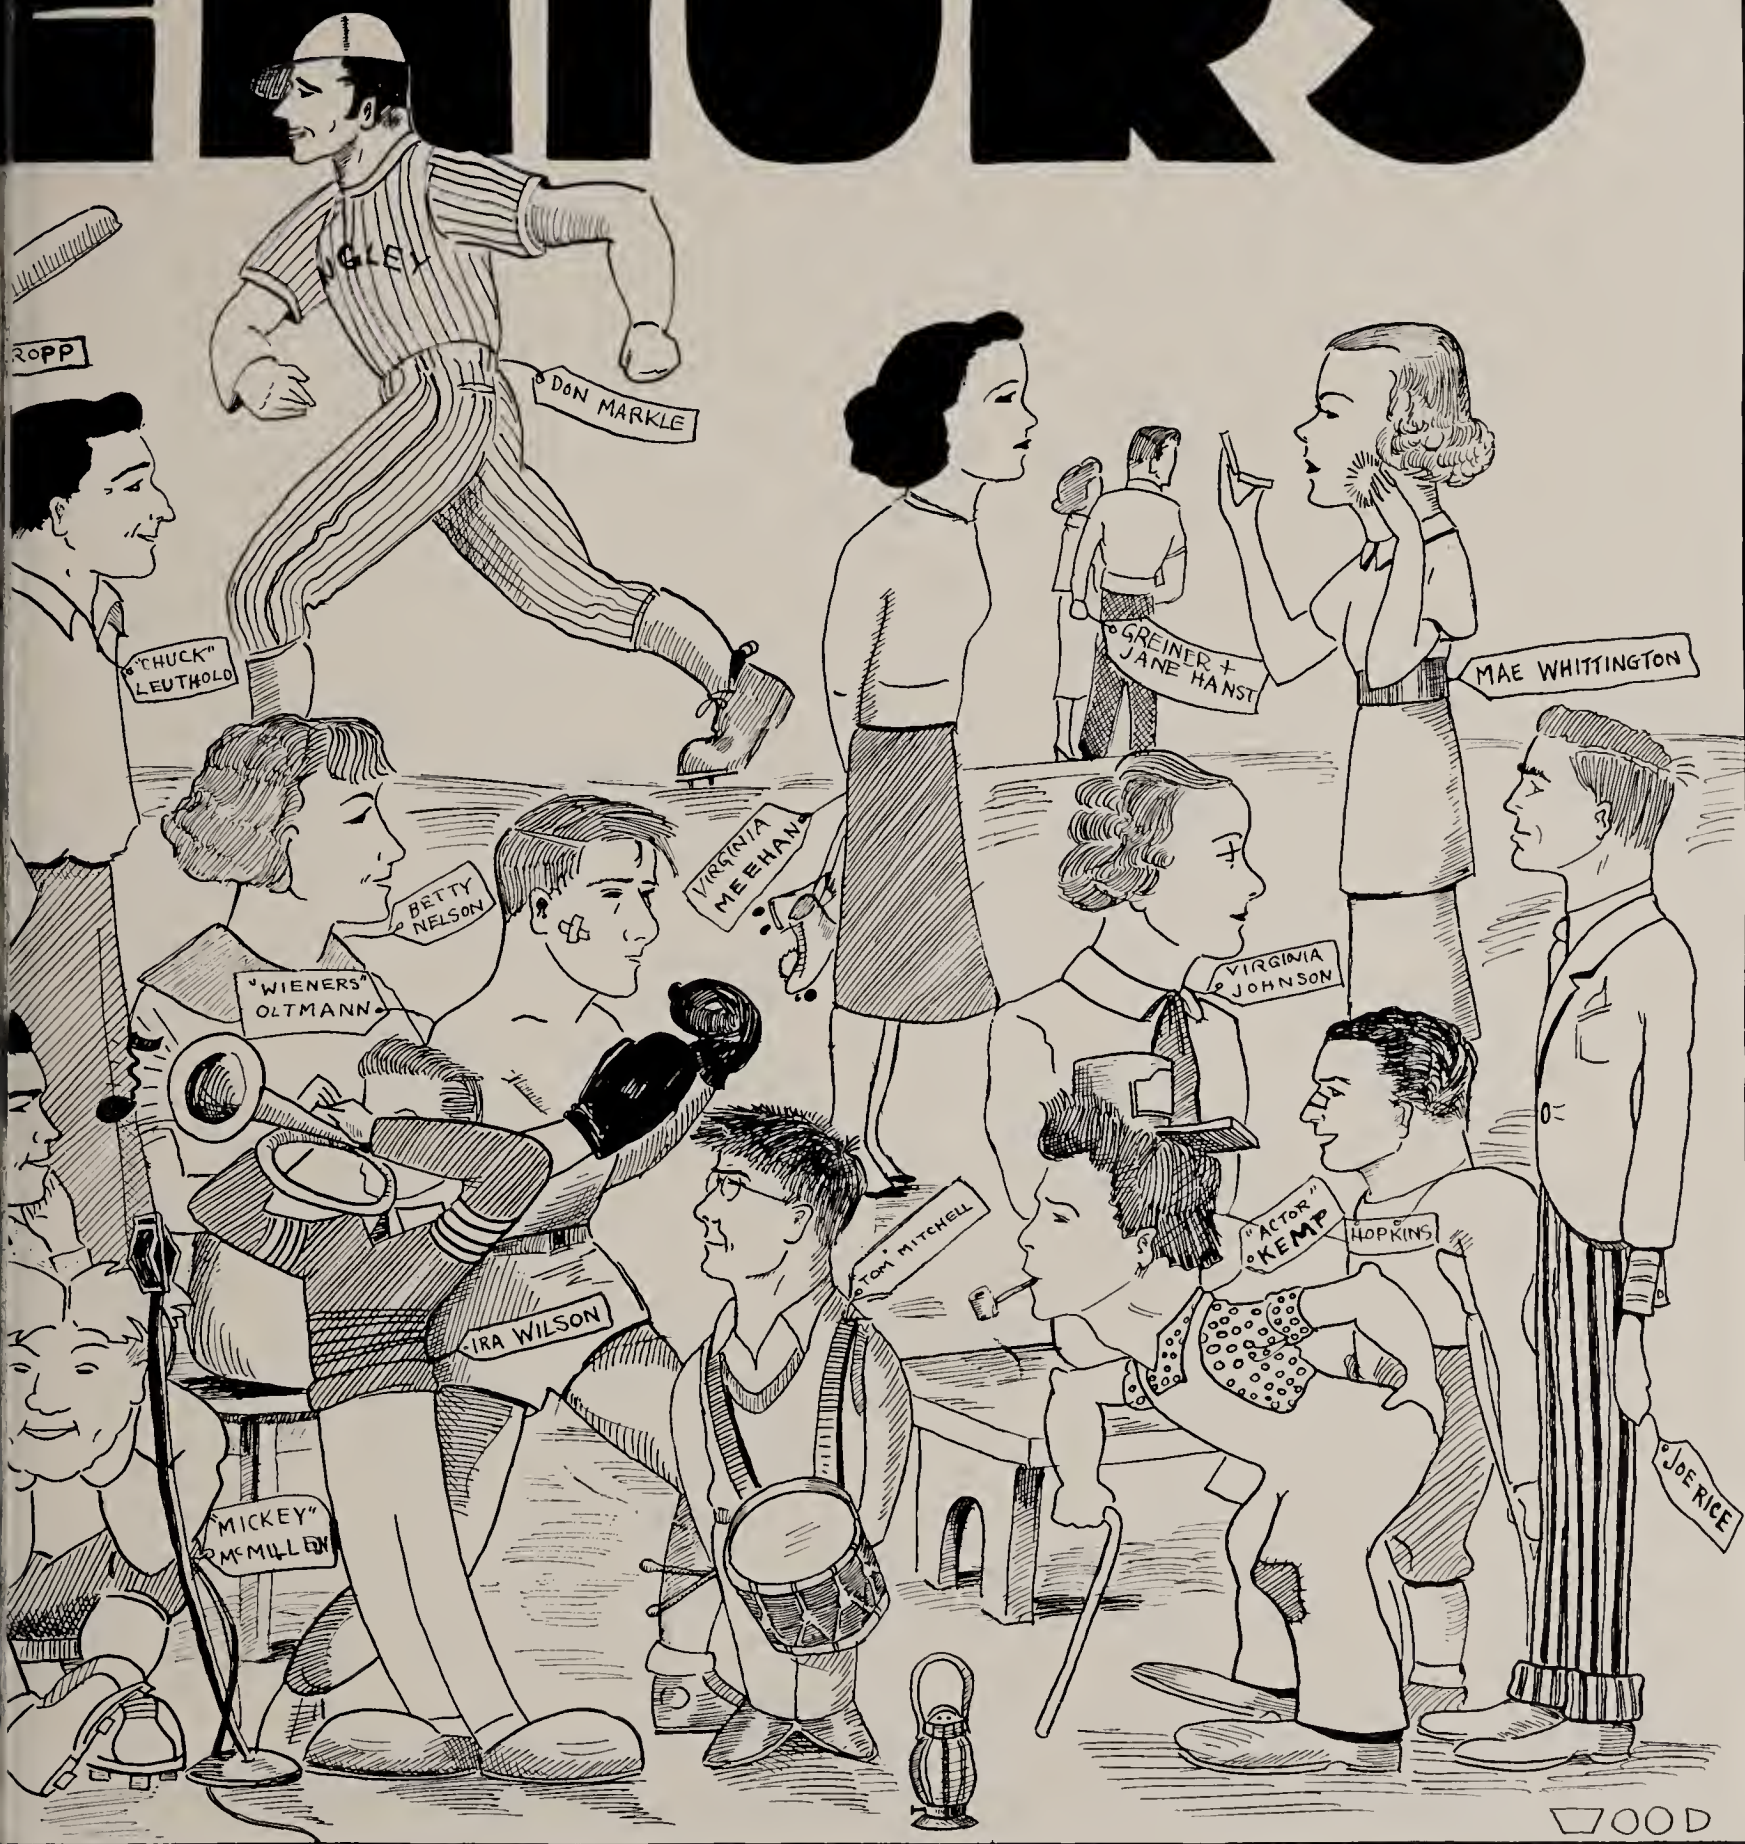

*But now we're on the outside
Of its gray but friendly walls,
We like to send them back again
To wander through its halls.*

—ANN GAYLORD.

The Prophecy

It is the year 1958 and the stratosphere ship, Langley, is ready to take off on a round-the-world cruise. This huge ship was designed by Jack Conley with the aid of the expert electrical engineer, Roger Cramp. The entire construction of the ship was supervised by Charles Leuthold, while the electric fusing was supervised by William Dudash.

The crew of the Langley is composed of the Pilot, Russell Smith; Co-Pilot, James Cleer; Navigator, Andrew Chubarov; Stewardess, Rita Wulcamp, and Chief Mechanic, Heinz Lefke.

As the huge ship is rolled out on the runway in preparation for flight, a taxi arrives at the airport and a man, carrying at least a hundred cameras, jumps out and hurries to the ship. It is none other than Wayne Gibson, the great photographer, who got his start by taking pictures in the AERONAUT. One by one the passengers arrive, and among them we find Stella Krempulec Rottenfeller, who married a millionaire; Oliver Thropp and William Martin, famous coaches from Pitt and Southern California; Tom Robertson, the greatest traveling salesman in the world; Alice Mae Specht, who is going to Africa to be Tarzan's mate; Norma Squibb and Lola Richmond, who are traveling to Australia to start kindergartens among the bushmen; Robert Hopkins, who is on an expedition to Mesopotamia to hunt the savage three-legged snail; Tom Shumaker and Ann Gaylord, the glamorous stars from Hollywood.

The dispatcher, Birt Hess, gives the signal and the great ship is off on its flight. The first stop is Colunas Island in the Pacific, where the passengers are met by the Ambassador from the United States, Virginia Johnson, and her efficient secretary, Helen Chappel. The passengers rent a big motor coach from Whittaker, Rosser, and Thurston Company, which company, when not driving the battered coach, takes care of babies for ten cents an hour. Some of the places of interest which are seen are the hospital of the famous Medicine Man, Don Carnahan; the department store owned by Ray Jackson, and kept out of the red by Maxine Graham; the Tree-Top Artists School, owned and operated by Don Markel and Jeannette McLaren; Big Wig Ball Park where John Lewis' Bearded Men are going to play James Adairs' Beau Brummel Nine, while Lee Brown "umps" and Eleanor Dorn sells tickets; the Pinch Penny Bank, owned by the renowned bankers, Grace Wright and Avis Rushton.

The sightseers reach the magnificent Place of Prince Leo Birbilas which was constructed by Bob Muraska. The beautiful inlaid floors of the palace were laid by our old friend, George Knopf. The delicately carved wood paneling in the banquet hall is the work of Anthony Stadulis, and the portraits of the royal family were painted by Bill Wood. The guests are announced by the perfect butler, Omar Steinkirchner, and the prince's sister. Stephania, the perfect housekeeper, serves the guests while they are entertained by the court musician, Doris Smith. Suddenly, Harry Hughes and John Hopkins, the prince's chemists, rush into the room crying "Eureka, Eureka," for they have finally found a way to make gold from old tin cans and hydrosulphuric acid.

The time has come for our departure and we are once more at the airport where we find three new passengers. They are none other than Valdoris Gwynn, Dorothy Smith, and Marie Louise Gabriel, talent scouts for the Pittsburgh Pirates. The ship once more is on its way and the next stop is Tokyo where the Olympics are

being held. Here the passengers disembark and go to the Ritz Hotel, which is owned by Joe Watchek and Elmer Weifenbach. Among the personnel of the hotel we find John Jennings, room clerk; Bob McMillen, Keith Doverspike, and Andy Jorinscay, bell hops; Ruth Dreibholz telephone operator; Ruth Whittington, travel aid; Loretta Gorzock, Mary Lois Scott, and Norma Gastel, as hostesses.

Everyone is anxious to be off to the Stadium where the American team, under the supervision of Coach Dana Bode, passes in parade. Among the American athletes we find our old friends, Teddy Dobroski, John Adamczyk, and Bill Dorsey, members of the three-man relay team, and Lorraine Bennett, who is assistant pencil sharpener to the scorekeeper. We also find Sylvia Benner and Jean Soboleski, aquatic stars. Other former schoolmates seen here are Gilbert Schultz and Jim Shannon, famous optometrists, selling colored glasses to the spectators; Wesley Kemp, Broadway star of "Dopey Dubs," accompanied by the beautiful model, Mary Gallagher; Manola Reed, Winifred Gray, and Geraldine Shoop, the wealthy tea exporters; and Blair Wallace, secret agent 4X. At the close of the Olympics, several members of the party take a tramp steamer to Australia. Among the officers are Bill Stuart, Captain; Carl Ayers, Chief Engineer; and James Kelvington, Bookkeeper, chief cook, and bottle washer.

The stratosphere ship is once more under way when the passengers find a stowaway, Francis Faloney, who is writing a book "A Stowaway's Memoirs." The next important stop is Monte Carlo, where the passengers visit the famous Black Jack Club operated by the big-time sportsmen, Larry O'Donnell and "Butch" Porter. The swing band is directed by Francis Drake, and among the players we find Ira Wilson, Edward Jena, Wesley Hufnagel, and Bill Hiltgen. Giving their all in the lyrics are Rosella Morrone and Dave Dick. The floor show consists of a ventriloquist act by Gertrude Pash and Betty Nelson; Tom Sworski and his magic, done with chemicals; Bertha Steinkirchner, the lovely dancer; and, Dorothy Leith, doing a ballet number. Edna Mae Trumble is the dietitian for the club, and it is rumored that she follows the recipes of Tissy Lisch. Among the guest we see La Beglinger, Modiste; Clara Sarnaki, fashion editor for McCall's; Harry Dunhoff, the big Wall Street broker; and Bill Kelly, professional party-goer.

There is the general cry of "All aboard," and the huge ship is again in the air. The next stop is Timbuktu in the heart of deep, dark, mysterious Africa. Here we find a tribe of vicious headhunters, and upon investigation they prove to be William Ashton, Frank Cobun, Roberta Ellenberger, Florence Geier, and Aimee Kelsey, who preferred the wide open spaces. Ruling over this savage tribe we find Ellen Schafer as queen, and Joe Rice as king. The tribe offered a prize for the one bringing in the most heads, and it was a draw between Theodore Mabrey, George Moser and Joseph Steedle.

From Africa we journey upward to Moscow, in Russia, and there we find Czar Al Miller with Jo Herdman as Czarina. Jack Weber plays fiddle for the Czar, and Bettey Howard, Helen Ross, Betty Lee Spencer, and Frances Thomas are authorities on the Russian Ballet. While exploring the plains of Russia, we run into Chinner Elliott, who is hiding out from the police because she is a fugitive from a brain gang. From Moscow we go to Siberia, and among the exiles are none other than Nell Forsyth, Lola Grant, Ida Mae Kirby and Dorothy Grimes.

Up to Greenland we journey next, and there we find Irene Schillo singing love songs to the Eskimos, while Elizabeth Mosterenko and Gwendolyn Stenger are soliciting subscriptions to the "Good Housekeeping" magazine. We also see Michael Krafchyshyn's beautiful trading post, the only three-story building in Greenland, in which Jane Hanst models house dresses to the Eskimos, Rita Erson sells bobby pins, Marjorie Henk demonstrates can openers, Mary Hoelzle sells

canned sardines, Virginia Meehan sells aspirin, and Wallace Paulauskas sells Baby Grand pianos. The preacher in Greenland is George Murray; Agnes Scholtz runs the dressmaking establishment; Jennie Swiencki does house-to-house canvassing; and Ward Foster is alderman.

Down to Rio we cruise, and as we embark from our good ship, *The Langley*, we are met with a welcoming committee composed of Helen Arnold, Betty Demby, Mabel Ellis, and Dorothy Gastner, who inform us that our quarters are to be at the Villa Buck, which incidently is owned by Thelma Hufnagel, ably assisted by Vera Schmitt, William Whittaker, Helen Willyard and Leo Picard. The first evening we are entertained by Wilbur Hawthorne and Ellen Jane Lear doing the tango, Mary Jane Menk singing "Down by the Rio Grande," and Helen Sacco, who plays a solo on the guitar. That same evening we meet Senorita Ruth Palmero, the notorious heart breaker, sometimes called Madam X, who has left a trail of broken hearts from the North to the South Pole. Courting her at the moment are Maurice Wilhelm and Albert Stang, not to mention Al Steiner who seems to be the favored one at the moment. As lady-in-waiting to Senorita Palmero is Mary Speakman.

Now a short trip to Shanghai, where we encounter Agnes Fischer and Roger Flint, missionaries. Roger received his trip free of charge because of the distinguished work he did as a Boy Scout. In China we are staying at the Hotel Foo, run by Aileen Holz, who employs Howard Hartner and James Kenny as page boys, Harriet Neiser as interior decorator, Jack Long as custodian, Laura Rode, Rita Schoeneman, Adelaide Skees and Marian Wallace as waitresses, and Louise Stoupe, who dances at the head of the chorus. Incidentally, the chorus is composed of Rita Gray, June Thompson, Helen Stewart, June Hall, Mabel Meathe, and Jean Munro. The men dancers are Harold Willis, Lee Brown, William Kraeling, Wilbert Miller, Edwin Salice and Thomas Mitchell. Teddy Oltmann is master of ceremonies, while Bob Greiner does a specialty dance called "The Dying Swan," with Barbara Kindle.

At Calcutta, we take on a few more passengers in the persons of Lloyd Sutch, the noted archeologist; Bert Fisher, who owns a junk-yard; Eugene Glancy, important financier; and Dorothy Boice, who owns the largest chicken farm in the west. At Calcutta we a'so meet William Barker, Harry Huck and Norman Krebs, who carry a jinricksha for the enormous sum of 10c a day, and there we also meet the famous socialite, Ursula Aber, who has millions, and who spends her time touring the Orient. By the way, we dropped into a movie house, in Calcutta, and saw their version of *Snow White and the Seven Dwarfs*. *Snow White* was portrayed by Betty Gallagher; *Grumpy* by Dick Fox; Julia Abramovitz, as *Dopey*; Pat McKeever, as *Sneezy*; Ruth Parfitt, as *Bashful*; Mary Louise Caldwell, as *Doc*; Lois Dawson, as *Sleepy*; and Anna Horlacher, as *Happy*. Also featured at the show was a murder picture entitled "*One Long Pan Wins Again*." In the title role of this picture is William Schmezer, with George Sickle and Lawrence Taxacher in the supporting cast; while the stage show consists of "*The Viennese Twins*," Mary Catherine and Anna Marie Pare; Lloyd Davies, who sings "*The Barber of Seville*"; and Betty Bentz, imitator.

Our visit to England is our last stop before we are once more homeward bound. We journey to Liverpool and stay at the home of Paul Lambert, our foreign representative in England. Acting as his secretary is "Peg" Gallocher, with Bob Scott, Herb Watson and Harriet Bienko as her aides. Living next door are Mildrige Glover and Betty Demby who are spinsters with money to burn. Marion Kavanaugh, Marion Kerrigan, and Anna Mae Gammiere are editors of the "*Herald*." In their employ we find Mildred Parrott, Charles Ayers, Charles Baxter and Fannie Baer as reporters. At present they are running a story about Phyllis Steele who is hiding out in England as a fugitive from a charm bracelet. We go to visit the mys-

terious Nancy (Schiaparelli) Pannabaker who has the greatest dressmaking establishment in the world, employing as models, Anna Mae Deer, Marietta Knapp, and Rita O'Conner. We also meet the eminent author, Ruth Hintemeyer, who is writing her autobiography.

Our vacation almost over, we begin our journey back to the good old U. S. A. Before we leave England, however, we are given a royal send-off by the three prime-ministers, John Hosie, Charles Lange and Charles Suck. We stop at the Statue of Liberty where we see Theodore Geier and Bill Hillman repainting it. Ruth Rodgers has recently been appointed caretaker there. We come to a three-point landing on Long Island and are met by Wilma Bickell and Stella Krasauskas, the official welcomers.

Our trip is at an end. We have seen the world; made new acquaintances; renewed old friendships. Over many seas, mountains and valleys we traveled; through rough weather and fair; but, we never feared for our safe return because we were riding our trustworthy ship, "The Langley."

Langley Cooperative League

STUDENT COUNCIL

The Langley Cooperative League is one of the most important organizations in the school. It is concerned with the interest and activities of all the student body and faculty. Organized in the fall of 1924 under the supervision of Miss Irene Williams, it has continued to grow, each year assuming new responsibilities.

The Student Council considers and plans projects to make Langley a better and friendlier school. Enforcing school laws is not the League's only function, and it also guides the Langley students in various activities.

The Student Council cooperates with the students, not only as an advisory body but also as a sponsoring organization. It is through the guidance of this body that Langley has maintained a governing unit of its own of which we may well be proud.

Any member of the Student Council is eligible to run for a school office. They are elected by the student body through a system of preferential voting.

In performing the many duties of the school, the Council works through a number of committees. The committee chairmen are as follows:

Locker Inspector	Barbara Kindle

The Choir is a regular scheduled class which meets daily. The class period is devoted to learning new songs and practicing old ones.

The group has been very active this semester, participating in numerous activities. Twice, it has broadcasted from South Hills. It had an active part in the Music Festival and appeared in several assembly programs.

To learn something of dramatics with special emphasis on enunciation and expression was decided upon as the purpose of the club for this semester. Track

Skillfully coached by Coach J. Reed Wehrle, and captained by Ted Dobroski, the Langley track enjoyed a most successful track season. It has won six dual meets, taken second in the Pitt Indoor Scholastic Championship, bowing to South Hills by one-third of a point (South Hills, 17 1/3, Langley 17) and ended fourth with a total of twenty-eight points at the city finals at Pitt Stadium, June 4.

Langley school track records were broken in the high jump by James Letcher, and the junior broad jump being broken by Sam Williams and Mack Washington.

This year seemed to be exceptionally favorable for the cinder trotters, who gave a fine performance in every meet. Credit is due to the splendid coaching of Mr. Wehrle who had strived for a long time to make the team outstanding.

Junior and Senior Swimming

Starting with an interesting Intra-Mural program, in which 135 boys participated, the 1938 season proved to be a very profitable one. The best of the 135 boys were formed into Junior and Senior teams.

With five meets scheduled at home, they succeeded in making this the fifth consecutive year (under "high-pressure" ticket selling) that swimming has been self-supporting, plus the purchase of its swimming suits.

The seniors, lead by Captain David Dick, won four of their seven meets, including the freshmen of both Carnegie Tech and Washington-Jefferson.

The juniors won all four of their meets, totaling 123 points to the opponents' 83. Arthur Dugan is Junior Captain.

Football Club

The football club was organized during the fall of 1936 by Mr. J. Reed Wehrle.

The purpose of this organization is to study the theory of football. Various plays and formations are studied to develop farther the knowledge of the players.

During the actual football season, the faults and good points of the previous game are discussed from notes taken during the game. The remaining part of the season is devoted to extensive study of the fundamentals of this great sport. These fundamentals cover blocking, tackling, and kicking.

Rifle Club

Meetings of the Rifle Club, which is sponsored by Mr. Ned W. Rankin, are held every other Monday. This club is an all-boys organization.

Members of the Club practice at various rifle ranges on Thursday evenings and Saturday mornings.

The officers of the Club are:

President	Frank Cobun, Jr.
Vice President	Robert Hopkins
Secretary	Albert Miller

Riding Club

In its infancy is the Riding Club which has just been started at Langley. There are both a boy's and a girl's division of this club. Meetings are held on Tuesday afternoon at the Rosslyn Farms Riding Academy.

Dues for the club are two dollars a month or one dollar a lesson. Beginning pupils are given one-half an hour free. Those riders who have had more experience have the privilege of riding the trails alone. Mr. Guest heads the club.

Life Saving Class

"A Fitness for Service Activity"

The Life-Saving Class organized in 1924, now on a full term course basis, has (not counting this year's applicants) 226 of its past members enrolled in the American Red Cross and is slowly but surely gaining recognition as a promising vocation.

Eleven graduate members were employed as life guards at municipal pools, recreational centers and parks last summer, which is a worthy achievement, when one considers that applicants are limited and that only a few can be selected out of a district.

Others have been placed in charge of the life-saving activities at the colleges they are attending.

This class is sponsored by Charles H. Basler.

Fencing Club

Early in the semester, starting in September, 1937, the L. H. S. fencing club was organized by Mr. R. C. von Ende. The club consists of fifteen boys and five girls who are endeavoring to master the fine art of fencing. Several matches have been engaged in by the club which has emerged victorious and with colors flying. Fencing, in Langley, will undoubtedly become one of the school's most popular sports.

Girls' Sports Club

The Sports Club is made up of a group of seventh and eighth grade girls who are outstanding in gymnasium work and maintain a grade of A in this subject as well as a good average in their other subjects. A *U* received during any report period eliminates the member until her scholastic standing has been raised. During the semester of February, 1938, the club had forty-two members which met on Club Monday at which time they participated a sport, the sport or game changing with each meeting. These girls are instructed in the rules and regulations of all tournaments that are run off in the intra-mural activities which enables them to officiate at these games and to earn athletic points toward their school letter.

This semester the following girls were officers:

- President Evelyn Couch
- Vice President Elaine Hollinsworth
- Secretary Dorothy Fry
- Eligibility Chairman Lillian Staas
- Program Chairman Betty Parfitt
- Athletic Point Manager Josephine Bianco
